A screenshot of a Windows command prompt window. The title bar shows the path `C:\Windows\System32\cmd.exe`. The command prompt is at the directory `J:\C# Learning\Lab Works\lab2`. The user has entered the command `csc 24.SumMatrix.cs`, which has executed the Visual C# Compiler. The compiler output shows the version `4.8.9037.0` for C# 5 and a copyright notice for Microsoft Corporation. A message follows stating that the compiler is part of the .NET Framework but only supports language versions up to C# 5, with a link to find newer versions. The user then enters `24.SumMatrix`, and the program outputs the sum of three 3x3 matrices, each containing the value 10.
